

Action Plan for Becoming an eTwinning School

ALLEGATO G) - PTOF 2022/2025

Background	
Principal	Clementina Cervale
Erasmus eTwinning contact person	Mary Nacca - Primary School Teacher
Country:	Italy
Short introduction to your school (e.g. school level, size of student body, number of teachers/staff, location, special focus areas, etc.)	<p>The school is a complex school because it is made up of the Nursery-Primary-Middle School- High School school of first and second grade.</p> <p>The school is located in the Abruzzo region in a small town of 6000 inhabitants.</p> <p>We are about 140 workers, teachers and staff, in all the schools. Our school focuses its interest a lot on digital development, inclusion, sport and arts.</p>
What are you trying to achieve by becoming an eTwinning school?	The school is already an eTwinning school and we are interested in keeping this title because we believe that an eTwinning school is a school that is always projected towards the future and its changes in a didactically functional way for its students.

Steps for becoming an eTwinning school			
Steps required to implement shared leadership	Resources required	Stakeholders to involve	Timeline
A shared leadership certainly needs a first step inside the school: to know and share everyone's skills. Then the plan is to create working groups according to the objectives to be achieved. Individual skills, combined, would reach their goals, thanks to the group cooperation.	All teachers must be involved, from every grade of school. Indeed, a complex the school requires a large participation of	Creating a constructive communication bridge with the external community is important because further skills can be gathered from it to better implement group works, always in order to achieve	At the beginning of the school year, a timeline must be set for the group settings, which could also change with the subsequent presence of other skills or other objectives Groups should start working by December, in order to plan and activate their Actions.

	each school order	objectives for the students.	
Steps required to enhance collaboration, sharing and teamwork	Resources required	Stakeholders to involve	Timeline
The necessary steps to improve is certainly to work and learn about eTwinning planning and the mentality of etwinners. Supporting joining this community will help you understand the different ways to work that will lead to change	Plan meetings at the beginning of the year in classrooms equipped with PCs or touch screens for eTwinning cafes	School Staff, Class Teams, Commissions, all the teachers of the different orders,	Adding new eTwinners by January
Steps required to develop inclusive and innovative practices	Resources required	Stakeholders to involve	Timeline
We could think of small workshops held by young people who have experienced eTwinning activities through moments of fun to do even every month; events aimed at involving those who need to know the new reality feeling accompanied and supported in the new way of doing	One could think of using school premises but above all public places of associations, libraries, etc. in this phase	The local expert eTwinners Some eTwinners from other regions	Once a Month : sessions of 2hours (some online, some onsite)
Steps required to become a model for other schools	Resources required	Stakeholders to involve	Timeline

Action Plan for Becoming an eTwinning School

<p>Becoming a model for other schools is important because only in this way will real change take place. Showing others that one's way of working brings excellent results will involve others to try: organizing as much information and training events as possible not only by teachers but above all by the protagonists: the students. Through their interviews, teachers from other schools will understand the opportunities for a change.</p>	<p>Teachers and students who have carried out eTwinning projects and who during the orientation period, to help families choose the school, carry out small workshops where they explain the new way of planning and working in the classroom through the community</p>	<p>Students, parents, journalists, local press, Municipality - Local Associations</p>	<p>Planning 3 events where students show the eTwinning potential, maybe in the school Open Days or connected to other events related to the project topic</p>
